#### 1.1 TUVALU TRUST FUND

In 1987 under the Tuvalu Trust Fund (Finance and Information) Act, the Government of Tuvalu established the Tuvalu Trust Fund (TTF) to contribute to the long term financial stability and viability of Tuvalu by enabling it to meet financial commitments from the proceeds of investments. The Trustees represent the Governments of Tuvalu, New Zealand and Australia, which are the main contributors to the Trust Fund.

Despite being the sole beneficiary of the TTF, the Government of Tuvalu does not control the TTF. The complete Financial Statements of the TTF are not consolidated in these Financial Statements of Government. The market value of the Government of Tuvalu's contribution to the TTF is included in these Financial Statements on the Statement of Assets and Liabilities, and the remaining balance of the TTF is contained in the notes to these Financial Statements as a contingent asset.

# STATEMENT OF ACCOUNTING POLICIES

### for the Year Ended 31 December 2013

#### 2 BASIS OF PREPARATION

The Statement of Income and Expenditure and the Statement of Assets and Liabilities are prepared on an accrual basis, and include non-cash items such as accruals and provisions.

The Financial Statements are presented in Australian dollars, and all monetary values are rounded to whole dollars, unless mentioned otherwise.

#### 2.1 STATEMENT OF COMPLIANCE

These Financial Statements are prepared pursuant to the Public Finance Act and are consistent with prior financial years. The Statements are in accordance with generally accepted accounting practice in Tuvalu (Tuvalu GAAP) as determined by the Government of Tuvalu. #### 2.2 TRANSLATION OF FOREIGN CURRENCY TRANSACTIONS

Both the functional and presentation currencies of the Government of Tuvalu are the Australian dollar. Transactions in foreign currencies are initially recorded in the Australian dollar at the exchange rates provided by the National Bank of Tuvalu on the dates of the transactions. At balance date, monetary assets and liabilities held in Foreign Currency are translated at the exchange rates ruling at the balance date. Resulting exchange differences are recognised in the Income Statement.

#### 2.3 BUDGET AMOUNTS

The Financial Statements show as comparatives the amounts appropriated by the original annual Appropriation Act that relates to the current financial year. Appropriations are on a cash basis.

#### 2.4 CHANGES IN ACCOUNTING POLICIES

Changes in accounting policies are applied retrospectively, and comparatives are restated. The effect of these changes, if any, is disclosed in item 4.1, below.

New accounting policies may be adopted for types of transactions that have become material to the Financial Statements for the first time. These are not considered changes in accounting policies. Likewise, some accounting policies may be reworded to better reflect the treatment of transactions; such rewording is also not considered a change in accounting policies.

#### 2.5 MATERIAL PRIOR YEAR ERRORS

If errors are detected that have a material impact on prior years, then these are applied retrospectively, and comparatives are restated. There were no material prior year errors identified in the preparation of these accounts.
